FOR IMMEDIATE RELEASE, Sept. 24, 2007

Your Child's Health & Wellness Record Receives Prestigious Awards and
Expert Endorsements Across North America.

Chelsea, Michigan. - *Your Child's Health & Wellness Record* has quickly garnered prestigious awards and expert endorsements throughout North America. Publicity has mounted for this beautiful, celebrated child's health journal and it has received several prestigious awards. These include the *Dr. Toy Best Products Award*, the *iParenting Media Award*, and the *Exceptional Parent Award of Excellence*.

Karen says...

"In my personal and professional experiences I often heard parents complain their concerns weren't taken seriously. This can threaten a child's chance of reaching full potential, and undermine parental confidence. I had, for the most part, had really positive experiences with our health professionals and usually felt that my concerns were taken seriously and acted upon. I started to examine what the difference was between myself and these parents. The result was *Your Child's Health & Wellness Record*."

*“Children whose parents are organized, informed,
and comfortable advocating for them
receive the best healthcare!”*

Not fair, but true. Karen’s goal is to give ALL parents, regardless of background, the tools, knowledge and skills to be able to provide this for their child. ALL children deserve to reach their ultimate potential in health and wellness. Health professionals know that early intervention produces the greatest results and there is a window of opportunity for treatment that most parents don't know exists. This tool gives parents the confidence to seek help when it is needed and to know that they can access the help their child deserves.

Your Child’s Health & Wellness Record is a multi-disciplinary health journal in which parents record health and wellness details for their child., including untraditional therapies and education events. It does not contain medical advice. Rather, this tool helps parents ...

- Assist their children quickly and effectively
- Gain confidence in their parental ‘intuition’
- Be heard and taken seriously by their doctors
- Access specialists and other health practitioners

Also available is a companion *Document Organizer*, which is a customizable, 3-ring binder for organizing reports, assessments, resource materials and even report cards. They can be used separately or as a set, depending on each child’s needs.

Your Child’s Health & Wellness Record is unique because it is suitable for all children, whether they are developing typically or have complex health and developmental issues. Health professionals love *Your Child’s Health & Wellness Record* because it ensures parents bring them the information needed to make accurate decisions. Parents love it because it is easy to use and gives them the confidence to be sure their child is getting the best care possible.

Karen Melnick is also available for speaking engagements at parenting related events. She offers a unique insight and provides great advice for parents. Suitable for expectant, new and experienced parents they will find this presentation informative, supportive and thoroughly enjoyable.
